people will be beard when the final vote is taken, and intelligent people should not believe that the prependerance of the free-silver element in the Democratic party in various State conventions represents the sentiment of a majority of the people. The people are honest, and will wote for an honest dollar. Wall Street Stock Exchange operators who are not in favor of lower prices should calm themselves and held their stocks. Despite the fact that stocks have been failing, and that the bear element has been making strenuous efforts to depress the market, the intelligent members of the financial community are not in the dumps regarding the political situation.

Considerable lightly held stock was shaken out in the first hours of trading to-day, and prices in the chief active shares ran down from 1 to 2 per cent, and in some cases heavier lesses were made. Dealings in the speculative favorities were heavy, especially in Sugar Refining, American Tobacco, Chicago Gas, Burlington, St. Paul, Rock Island and Louisville and Nashville. Unexpected withdrawals of gold for export and not declines in the May statements of the St. Paul and Burlington companies helped to democralize prices. Last week London bought more stocks in this market than it sold, and Seturday's purchases for the foreign account were well absorbed in London to-day, while there was a good-sized foreign buying interest in to-day's market. London operators evidently understand the political situation here as regards sound money sentiments better than the local operators, and they are taking advantage of the current decline. When London huys the market is supposed to advance, but for the hist ten days foreign operations in this market have been made without notice or effect. Upward of 40,000 shares were taken to-day for the foreign account. There was some covering of shorts in the afternoon, and a small raily was effected, hast prices for the majority of shares chasing slightly above the worst prices of the day, but well under Saturday's final prices, not l
